DETAILED ACTION

Response to Amendment

Examiner acknowledges receipt of amendment on 12/04/03.

Claim Objections

Claim 1 is objected to because of the following informalities: Applicant has included an amendment to add "the personal informnation". Applicant has misspelled the word information. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US Patent No. 5,793,365 to Tang et al. ("Tang"). Tang teaches a system for providing communication between a plurality of people, including a profile of each user, and a plurality of information services (Abstract). The communication system registers the plurality of people and displays image representations of the people and their current activity to all participating users (Figs. 1A-8).

Response to Arguments

Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection. Applicant has amended claims to require further specifics

Art Unit: 3713

of a plurality of information services and showing the service currently utilized by system users.

As such, Examiner has applied new art to meet the modified claims.

Citation of Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Pat. No. 6,308,327 to Liu et al. teaches real time user system useage.

US Pat. No. 6,352,479 to Sparks, II teaches an online game community that tracks user information, facilitating better user communication.

US Pat. No. 6,009,458 to Hawkins et al. teaches saving game data for users using profile servers.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
